

Michael Manzi

Partner | New York

Michael Manzi is a Partner in the Real Estate Practice of Smith, Gambrell & Russell, LLP.

Mr. Manzi has practiced real estate law in New York for 28 years with a concentration on commercial leasing and the representation of cooperative and condominium boards, as well as sponsors. He also has extensive experience in a wide variety of real estate transactions including financing, sales and acquisitions.

In representing landlords and tenants, he guides the parties to a mutually acceptable and beneficial relationship memorialized in the final lease agreements that comport with the most recent developments in the law. In his representation of cooperative and condominium boards, he guides them through the many problems that they confront—from daily operations to special matters. He enjoys the unique challenge that these boards face: how to run a business that involves the daily lives of a wide variety of individuals. He's not just a legal advisor but a counselor and diplomat.

His practice has included:

- Advising over 75 cooperative and condominium boards on a wide variety of legal and commercial matters.
- Drafting and negotiating retail, including shopping center, leases.
- Negotiating over 50 office leases for a Fortune 500 company.
- Handling through closing the acquisition, disposition, financing, and ownership of commercial properties, including the structuring and re-structuring of the ownership entities, and the acquisition and disposition of properties of religious and other non-profit organizations.
- Counseling through closing borrowers of SBA mortgage loans.
- Representing individuals purchasing and selling luxury residential properties.

Mr. Manzi received his B.F.A. and M.F.A. from the Institute of Film and Television at New York University, where he also taught writing courses and served in the administration of the Dramatic Writing Program. He then moved from academia to law and earned his J.D. from Fordham University School of Law where he served as Managing Editor of
